WEB + MOBILE + TV APPLICATION

# Karishma Alive Studio

## Web + Mobile + TV Application

iFlair had received a proud moment while working with Alive Studio, when the project was named after our project manager "Karishma Soni". Our Journey started on January 2011, and it seems 2017 is just midway. Client was incredibly happy with the amazing work and finest quality of the project. We have created a cloud base platform which allows user to restore, scan their video tapes, films, slides and photographs in HD format with require modification. We also delivered Mobile App and TV app for them.

**Live URL :** [www.alivestudios.co.uk](http://www.alivestudios.co.uk)

The image shows a screenshot of the Alive Studios website. The website has a dark header with the logo 'alive studios DEVON' and navigation links: 'about us', 'blog', 'ordering', 'support', 'memory vault', and 'my account'. Below the header is a main banner with the text 'Watch our new advert watch video' and an illustration of a person standing next to stacks of film reels. The main content area features several service tiles: 'Cine Film to Digital HD-UHD', 'Video tape in HD', 'Cine Film Transfer in HD and UHD', 'Meet the Team', 'Karishma Cloud', and 'Cine Film to Digital HD-UHD'. Overlaid on the right side of the screenshot are three statistics: '80+ International Brand', 'TV & Mobile App developed', and '8+ Year success'. The background of the statistics is a large image of a film reel.
